

QUALITY POLICY

Codmah Pty. Ltd. are proud of their position as one of the leading civil, pipeline (Gas, Telecommunications, Electrical) and directional drilling companies in Australia.

The development and implementation of an integrated quality management system in accordance with ISO9001:2008 is a key step towards achieving this goal through the control and management of risks and impacts.

The company will always meet our clients' highest expectations by:

- Accurately identifying our clients needs and submitting proposal that truly reflect those needs;
- Applying effective project management to all projects regardless of size;
- Ensuring that all personnel associated with project delivery and support services are appropriately trained and have the relevant competencies and qualifications;
- Complying with all relevant specifications, codes of practice regulations and Standards;
- Maintaining effective communications and relationships with the local community effected by projects; and
- Providing products and materials that will meet customer performance expectations.

Codmah Pty Ltd will continuously improve the effectiveness of its operations and management systems by maintaining a certified quality management system and through adopting the continual improvement philosophies contained in ISO9001:2008
